

## **Glitter Snozzles Glasses Holders now in - sparkly!**

Glitter Snozzles Glasses Holders have arrived!

Snozzles keep your glasses safe. We have stocked them for quite a while now, and now glamorous Glitter ones have been added to the range. They have a smooth tactile glass-like finish with the glitter particles mixed throughout.

Available in four glitter colours: Silver, Gold, Pink and Graphite (Dark Grey/Black with Silver Glitter).

With a recess in the top of the head for glasses frames to slot into, Snozzles look for all the world like the he/she is wearing them!

Measuring approximately 8cm tall x 5cm wide, your Snozzle comes in a transparent gift box.

The lovely colours appeal to little people but these are a lovely gift for grown-ups too. Ideal for dotting around the home and the office. Never lose their... or your... glasses again!

If your little person wears glasses or sunglasses and can never find them, these brightly coloured friends will keep their glasses safe. Pop their glasses on the end of his nose, then pop Snuzzle on the sideboard, the bedside table, the office desk...

Sarah left this five out of five Star Rating for the Snuzzle she bought from us:

**"Purchased for my daughter when she got her first glasses and she absolutely loves it. This fits child and adult glasses and is really robust. Fabulous product and my Sister-in-Law has now asked me to get one for her too!"**

You'll find the full range of [Snuzzles Glasses Holders here](#).

Glasses not included (sorry).
